ABOUT ME

I'm an aspiring software engineer, turning code into solutions. Passionate, innovative, and always in pursuit of the next tech adventure.

EDUCATION

- Pursuing my Bachelor of Technology program in Computer Science and Engineering at the esteemed Cochin University.
- Achieved academic excellence by graduating from St. Antony's Public School, Anakkal, with an outstanding score of 90% with Computer Science in 12th grade, in the year 2023
- Attained a strong academic foundation through my education at Gayathri Central School, Kayamkulam, where I completed my studies up to the 10th grade in 2021

SKILLS

- Python programming
- Database Management
- C programming
- Creative
- Adaptive
- Problem-Solving

ACTIVITIES

I have proudly developed a fully functional Indian Railways e-Ticket Booking Portal, comprising of more than 1000 lines of efficient code when I was in my 12th grade. The project features a Python-based frontend and a robust MySQL backend, showcasing my expertise in both front-end development and database management.

I have a strong passion for athletics and have demonstrated my dedication by competing in the CBSE State-level sports meet not once, but twice. These experiences have not only honed my athletic skills but also instilled in me the values of discipline, teamwork, and perseverance.
